Due to the incredible volume of cases dates have been scheduled with the Arbitrators through September 2011.

Mr. Rinaldi has expressed NATCA’s interest in the program to FAA Administrator Babbitt, but the FAA’s current organizational structure doesn’t foster this type of partnership atmosphere. In the interim, NATCA will try to work within the framework of the Executive Order in its development of the collaborative process being developed by the Parties. Open - Rinaldi

Contract Towers with No Members: Mr. Ullmann believes the union needs a process that would identify locals that have no members and/or are delinquent in filing LM forms. National Benefits Committee Charter: Ms. Gilbert has worked with the National Benefits Committee to revise their charter, which is being submitted for NEB review and approval:

The NATCA Benefits Committee (NBC) shall be an ad hoc committee chartered for the exclusive purpose of researching and analyzing potential benefits for the NATCA membership.

To meet this purpose, the NBC is tasked with the following:

1. Suggest, investigate, review, evaluate and assess suitable benefit options that may
be offered to the NATCA membership. Such research and assessment will, at a minimum, consist of full and complete consideration and analysis of all available options within a category, benefit desirability, legal and financial feasibility, and the application of due diligence and record keeping within all phases.

2. Report and make recommendations to the National Executive Board concerning potential benefits. At a minimum, such reports shall identify the options considered, summarize the research and analysis undertaken, provide a cost determination (including a worst-case scenario), frame the legal and financial issues, and provide specific recommendations and associated rationale, including a copy of the General Counsel’s review and recommendation.

3. The NBC, through its Chairperson or his/her designee, shall brief the National Executive Board on NBC activities.

4. The NBC shall meet at least twice per year.

Composition of the NBC The NEB shall solicit volunteers and the President shall select a minimum of five active or retired NATCA members in good standing to serve on the NBC. The Chairperson of the NBC shall be a member of the committee, selected by the President. Normal and typical reimbursement of expenses for committee activities shall be borne by the NBC budget.

The resources and assistance of the NATCA General Counsel and NATCA Comptroller are available to the NBC through the Executive Vice President, as well as other tools and counsel which the Executive Vice President determines are necessary to fulfill the committee’s function.

No member of the NBC shall derive any financial gain from his/her position on the NBC, apart from any privilege or benefit made available to other NATCA members.

Once a new NATCA member benefit is approved and implemented, the NATCA Benefits Trust, the NBC, or other entity as required by statute or determined by the National Executive Board, will monitor, manage, and maintain the benefit, to the extent required by Statute or determined by the National Executive Board.

Gilbert: Motion to approve the revised National Benefits Committee charter
Robicheau: Seconded
Vote: Passed unanimously

**Information Sharing:** Mr. Barbarello noted that it is difficult to keep track of everything due to the massive amount of information currently being generated and ongoing projects. He would like to have one central location where you could find information, such as Google.docs. Designated individuals would serve as focal points to populate and update information. He will work with Mr. Robicheau on this issue. **Open - Barbarello**

**Retirement Benefits for Members Only:** Mr. MacDonald questioned whether the National Benefits Committee could investigate additional retirement funds for members, which would be funded by the individual members and could provide an additional retirement annuity. After discussion, it was agreed not to pursue this. **Closed**
