

DAC Bulletin #1
Substance Abuse Assessment Report:
Published July 20, 2016

The Drug and Alcohol Committee advises an employee undergoing substance abuse assessment and evaluation to request in writing a copy of his/her assessment report immediately following the evaluation. Submit the request with the clinician providing the assessment as well as with the Regional Flight Surgeon and/or the EAP Coordinator. DAC encourages the employee to share the information with the NATCA representative(s) working the issue on behalf of the employee.
