Emotional Reunion as Texas Pilot Meets ZFW Team That Helped Save His Life

On Jan. 10, pilot and Paris, Texas neurologist Dr. Peter Edenhoffer met and thanked air traffic controllers and managers at Fort Worth Center (ZFW) who came to his aid when his Cessna Cardinal experienced complete electrical failure on Super Bowl Sunday in February 2017. The teamwork and quick-thinking demonstrated by a team of professionals at ZFW with more than 150 years of combined experience helped guide Edenhoffer to a safe emergency landing. "How can simple words of thanks ever express the depths of saving a life?" Edenhoffer wrote in a thank you note to the team. Read more.

Out of Gas, But In Luck: Pilot Saved by LOU Controller

Louisville-Bowman ATCT (LOU) member Rebecca Goff came to the aid of pilot of a motor glider in an emergency situation. He was out of gas and needed to land quickly. Listen to the whole story on the Federal Aviation Administration's latest
installment of its "True Stories of Air Traffic Control" series. [Listen here.]

Read more.

CISM: New Web Section For This Important Program

The NATCA Critical Incident Stress Management (CISM) team is a Union-operated, Agency-supported group designed to help air traffic controllers effectively manage stress that they may experience following a critical incident. Learn more about CISM and check out the new web section on the NATCA website! Click here. How to contact CISM: Call or text 202-505-CISM (2476) or email cism@natca.net.

New N90 Opening Features Different Qualifications

The Federal Aviation Administration (FAA) on Jan. 18 posted a new New York TRACON opening for FAA employees that removes a long-standing Quality Ranking Factor that often eliminated those employees with radar experience below level 8 or tower only experience. Selected employees will be required to successfully complete FAA Academy requirements prior to receiving a firm offer if they have never been terminal radar certified at a level 10 or above terminal facility. Employees that have not been facility radar certified at a level 10 or above terminal facility will be required to pass the Ten Eleven Twelve Radar Assessment (TETRA). If you don't successfully complete the academy requirements, you remain at your current facility.

The job opening, which includes permanent change of of station relocation expenses of $27,000, will close on Jan. 17, 2019. View the USA Jobs bid. Questions - click here.
