Union Synergy Committee Update: Join the Members-Only Facebook Group

The National Executive Board started the Union Synergy (US) Committee in early 2019 to recognize and address the effects of bias on our work environment and our work culture amongst all NATCA safety professionals.

The US Committee invites all active and retired NATCA members to join their brothers and sisters in the US Facebook group, where members discuss inclusion and share perspectives across diverse cultures and experiences. The goal of the committee is to promote and maintain a Union that is inclusive of all members and thrives on the talents of its diversity. ZLC Members Meet with Utah Congressman and Pilot Chris Stewart

Salt Lake Center (ZLC) Legislative Representative Tyler Ellis and National Legislative Committee Alternate Northwest Mountain Region Representative Caryn Morrison (ZLC) recently attended an event with Utah Rep. Chris Stewart where they were able to continue to build a relationship and discuss the concerns of NATCA's members and our legislative priorities.

"The event was an exhilarating experience that let us talk to the congressman and connect on both a personal level and professionally as air traffic controllers," said Ellis. "The congressman shared stories, laughs, and the question we love to hear: 'What can I do for NATCA?'"

Stewart is a pilot, and he respects the safety, expedition, and love aviation safety professionals put in, Ellis said. Morrison and Ellis discussed stable funding for the National Airspace System. They also spoke with Florida Rep. Mario Díaz-Balart and Oklahoma Rep. Tom Cole who were also in attendance.

"They were both eager to shake our hands and let us know how much, especially, ZLC NATCA local meant to them, with controllers doing the job day-in and day-out," Ellis said.

Learn More About Your Union in NATCA 101 Class Feb. 15

The Reloaded Committee will hold its monthly NATCA 101 class on Feb. 15 at 3 p.m. EST.

"It is helpful to understand where this Union is moving forward when you know where it has been. NATCA 101 gives you that knowledge," said Engineer/Central Region (ECE) member Pam Rusk.

Education is the first step toward a stronger local, which leads to a more powerful national Union. A strong Union creates a better future for our members and their families.
