

Nov 16, 2023 NCEPT temporary modifications

Round 1

- Releasing facility must be at or above 85% current % CPC to Target (column L of the PPT) and at or above 85% Projected % to Target *(column AA of the PPT).
- Releases stop when the facility drops below 85% Current or 85% Projected % to Target.
- Gaining facility must be below 90% of the Projected to Target.
- Facilities will make one selection at a time; the selection order will be based on the most recent decision lens agreement (DLA). Once every facility eligible to gain has made one selection (if available), this process will repeat, beginning at the first facility on the DLA until all possible selections have been made. Facilities will no longer make selections once they reach 90% of the Projected to Target.

Round 2

- Releasing facility must be at or above 85% current % CPC to Target (column L of the PPT) and at or above 85% Projected % to Target *(column AA of the PPT).
- Releases stop when the facility drops below 85% Current or 85% Projected % to Target.
- Gaining facility must be below 100% Projected to target.

Facilities will make one selection at a time; the selection order will be based on the most recent decision lens agreement (DLA). Once every facility eligible to gain has made one selection (if available), this process will repeat, beginning at the first facility on the DLA until all possible selections have been made. Facilities will no longer make selections once they reach 100% Projected to Target
