

NATCA Recognizes Veterans Day

Each Nov. 11, the United States celebrates Veterans Day to honor the service of members of the U.S. armed forces. NATCA is also proud to represent the over 4,000 veterans in our Union.

HAPPY VETERANS DAY

Thank You for Your Service

To all who have served, thank you for your courage and sacrifice. Without people like you, we would not have the freedoms we do. You are not forgotten.

ALL CLASSES ARE HELD IN LAS VEGAS, NV UNLESS OTHERWISE NOTED

Article 114 Updates Available on our Website

NATCA's Article 114 Representatives collaborate with the FAA to introduce and implement new technologies, systems, and procedures in the National Airspace System. The involvement of these NATCA members ensures that aviation safety professionals have a seat at the table and a voice in decisions affecting the safety of the flying public and the operation of NATCA-represented facilities.

Many of these members serve in their roles under the leadership of NATCA's Safety and Technology department and share regular updates about their

programs and activities that are available on the NATCA website.

The graphic features a background of a blue and white nautical chart. Overlaid on this is a white rectangular area containing the text 'A114' in white on a dark blue background, and 'UPDATES' in white on a red background. To the right is the NATCA logo, which consists of a crown inside a circle with the letters 'NATCA' below it. Below the logo is a red megaphone held by a hand in a dark suit sleeve. The text 'Available to members on NATCA's website' is written in dark blue below the megaphone.

Check out the Article 114 Representative reports and see how their work upholds NATCA's commitment to enhancing aviation safety and advancing our profession [here](#).
