## U.S. House of Representatives Passes CR to Fund the Government

NATCA Family,

This evening, the U.S. House of Representatives passed a Continuing Resolution (CR) to fund the government through March 14, 2025, and avoid a shutdown. We expect that the U.S. Senate will take the bill up for vote soon. We will keep you apprised of any developments.

NATCA's National Executive Board, National Legislative Committee, activists, and national office staff have been actively advocating for a solution to the ongoing standoff. We hope that this short-term CR will pass the Senate and be signed into law to give everyone involved the time needed to negotiate a fiscal year 2025 appropriations deal.

In Solidarity,

The National Executive Board
