

5/21/2025 NCEPT Panel PPT & ETT Adjustments

Here is a list of adjustments made to the PPT/ETT after the May 7, 2025 document publication that was used for the May 21, 2025 NCEPT panel. These actions occurred prior to May 7, but did not make it into SWB for various reasons.

- ARB – Trainee certified on 5/2. Reduced their trainee count from three to two. Increased their CPC count from nine to ten.
- MDT – Increased staffing target from 32 to 39 due to Section 804
- RDG – Decreased staffing target from 18 to 11 due to Section 804
- PDK – Decreased trainee count from four to three
- AGS – Trainee certified on 4/18. Reduced their trainee count from seven to six. Increased their CPC count from 13 to 14.
- LAF – Inbounds changed from one to three
- SPI – Trainee certified 3/9. Reduced their trainee count from three to two. Increased their CPC count from ten to eleven
- SLC- CPC on a LTH but also has an outbound. The ETT was double counting the CPC as a loss, so one of the losses was removed.
