## Updated NATCA Constitution Mailed to Members and Available Online

The NATCA Constitution was created to govern members in efforts to advance the status, professionalism, and working conditions of all aviation safety

professionals through collective bargaining, political action, and other lawful concerted activity. During the 20th Biennial Convention in San Francisco, members discussed and approved changes to the NATCA Constitution, Standing Rules, and Policy & Position Statements.

This week, the National Constitution Committee (NCC) has mailed an updated copy of the Constitution to all members. Members can also view and download the updated NATCA Constitution on our website [here](#).
