# SPONSORS & EXHIBITORS

## GRAND BENEFACTORS:

### American Airlines—303

At American Airlines, our purpose is to care for people on life's journey. Together with our American Eagle regional partners, we offer thousands of flights daily to 350 destinations in more than 60 countries. American has hubs in Charlotte, Chicago, Dallas-Fort Worth, Los Angeles, Miami, New York, Philadelphia, Phoenix and Washington, D.C.

<https://www.aa.com/>

**Contact: Rob Herberger**

### L3Harris—205

L3Harris provides and manages operational services to U.S. and international Air Traffic Management customers, including telecommunications infrastructure networks, data and information management systems, flight planning systems, weather and radar processing, air traffic surveillance, and air to ground data link communications.

[www.L3Harris.com/atm](http://www.L3Harris.com/atm)

**Contact: Chris Sutherland**

### Southwest Airlines—408

Southwest is proud to be a sponsor at this year's Communicating for Safety Conference. This important opportunity for us to meet, discuss, and understand the successes and challenges we face together, perpetuates the safety and efficiencies expected... and enjoyed... in our National Airspace System. Southwest's Flight Crews and our Air Traffic Management group work side by side with you every day sharing a common goal. We listen, learn and offer perspective. We attend collaborative interchanges, participate on many technical exchanges, and attend important safety panels. Many of you have seen us visiting your facilities. We work hard to make our operations open and transparent because we care. The future looks bright! With renewed efforts to modernize our air traffic control infrastructures, available technologies like Required Navigation Performance (RNP) and emerging technologies like EoR, MARS and Interval Management (IM) ...the sky's the limit! We can't wait to visit with you! Come see us in booth 408!

<https://www.southwest.com/>

**Contact: Bill Scott**

### United Airlines—101 Badges and Lanyards Sponsor

Good Leads the Way! Our shared purpose "Connecting People. Uniting the World" drives our decision making, supported by our core values—Safety, Caring, Dependability and Efficiency. In action, that means doing the right thing for our planet, our passengers and our people. We believe

in the transformative power of travel.

<https://www.united.com>

**Contact: Paul Litke**

## DIAMOND SPONSORS:

### Frequentis USA—404

At Frequentis USA, we are committed to making the world a safer place. Our mission is to design highly reliable & user-friendly communication & information systems. As an industry leader of safety-critical control centers, we integrate & digitalize our systems, while keeping the highest standards of safety. We have been serving U.S. government agencies such as the FAA, DoD, and NASA for 25 years.

<https://www.frequentis.com/en/subsidiaries/usa>

**Contact: Abigail Smith**

### Peraton

Peraton is a next-generation national security company that drives missions of consequence spanning the globe and extending to the farthest reaches of the galaxy. As one of the world's leading mission capability integrators and transformative enterprise IT providers, we deliver trusted, highly differentiated solutions and technologies to protect our nation and allies from threats across the digital and physical domains. Peraton supports every branch of the U.S. Armed Forces, and we serve as a valued partner to essential government agencies that sustain our way of life.

<https://www.peraton.com>

**Contact: Patricia Benes**

## PLATINUM SPONSORS:

### Aireon—117

Aireon is harnessing next-generation aviation surveillance technologies that were formerly ground-based and, for the first time ever, is extending their reach globally to significantly improve efficiency, enhance safety, reduce emissions, and provide cost savings benefits to all stakeholders.

<https://www.aireon.com/>

**Contact: Emily Feliz**

### ATCA— 504 Breakfast Sponsor

Established in 1956, ATCA – also known as the Air Traffic Control Association - represents the U.S. industrial base that designs, develops, and maintains the world's largest and most complex air traffic management (ATM) system run by the Federal Aviation Administration (FAA) as the largest Air Navigation Service Provider (ANSP) in the world - handling over 50,000 daily flights across 29 million square miles of airspace. Our members operate globally and in all 50 U.S. states,

# SPONSORS & EXHIBITORS

U.S. territories as well as provide ATM services for the Department of Defense.

<https://www.atca.org/>

**Contact: Rugger Smith**

## **Delta Air Lines—500**

Through the warmth and service of the Delta Air Lines (NYSE: DAL) people and the power of innovation, Delta never stops looking for ways to make every trip feel tailored to every customer. 100,000 Delta people lead the way in delivering a world-class customer experience on over 4,000 daily flights to more than 280 destinations on six continents, connecting people to places and to each other.

<https://www.delta.com>

**Contact: Anthony Vassiliadis**

## **SAIC—not exhibiting**

SAIC® is a premier Fortune 500 mission integrator focused on advancing the power of technology and innovation to serve and protect our world. Our portfolio of offerings integrates emerging technology into mission critical operations. Headquartered in Reston, Virginia, SAIC has approximately 24,000 employees and annual revenues of about \$7.5 billion.

<https://www.saic.com/>

**Contact: Donna Tanner**

## **GOLD SPONSORS:**

### **Indra Air Traffic—312**

Indra Group is a holding company that promotes technological progress, which includes Indra, a leading global defence, air traffic and space company; and Minsait, a leader in digital transformation and information technologies in Spain and Latin America. Indra Group drives a safer, more secure and connected future through innovative solutions, trusted relationships and the best talent. Sustainability is part of its strategy and culture, in order to respond to present and future social and environmental challenges. At year-end 2024, Indra Group had revenues of 4,843 million euros, local presence in 49 countries and commercial operations in more than 140 countries.

<https://www.indracompany.com>

**Contact: Tracy Shadle**

### **Thales—not exhibiting**

For more than 80 years, Thales has proudly supported the U.S. national airspace, and the air traffic controllers and aviation professionals who keep it safe. Thales air traffic control solutions are deployed in the world's most complex airspaces, with 2 out of 3 aircraft in the world taking off, flying and landing using Thales technology. Our scalable, flexible solutions build on the strength of our

global experience, and we stand ready to rapidly modernize the U.S. aviation system now – because America's aviation moment is now.

<https://www.thalesgroup.com>

**Contact: Frank Matus**

### **Wey Technology Inc.—213**

WEYTEC revolutionizes control rooms with smart content management, emphasizing task-focused operations. With 40 years' experience, 50,000+ installations, and in-house tech, it offers swift incident response, data control, and seamless system integration. The unique, software-independent WEYTEC distribution PLATFORM (WDP) ensures scalability, diverse system integration, and heightened situational awareness.

[www.weytec.com](http://www.weytec.com)

**Contact: Robin Littau**

## **SILVER SPONSORS:**

### **Beacon Realty – not exhibiting**

Beacon Relocation has been providing five-star service to our NATCA members (active and retired) and their extended families for over seven years. Backed by a vetted network of real estate agents, you can count on us for unparalleled service, expertise, and guidance every step of the way.

<https://www.beaconrelocation.com>

**Contact: Kevin Walker**

### **Prime Air—not exhibiting**

Prime Air's mission is to bring packages to customers in less than 30 minutes by drone. After ideation, rigorous testing and development, we launched our first commercial deliveries in 2022. Today, our customers can order essentials and last-minute must-haves, receiving them faster than ever.

<https://www.amazon.com/dronedelivery>

## **BRONZE SPONSORS:**

### **Adacel—206**

Established in 1987, Adacel plays a significant role in global air space safety. A world-leader in its industry, Adacel applies cutting-edge technologies to develop advanced ATC simulation and training systems and state-of-the-art ATM solutions. Adacel's customers include international ANSPs, airport authorities, universities, military, defense, and security organizations.

<https://www.adacel.com/>

**Contact: Britney Hernandez**

### **Air Traffic Intelligence (ATI)—317**

Air Traffic Intelligence delivers elite, standardized training and expert consulting that bridges the gap between Air Traffic Control and the entire

# SPONSORS & EXHIBITORS

aviation ecosystem. We design high-performance training programs individually tailored to enhance communication, improve safety, and boost operational efficiency. Whether you're a pilot, ramp controller, ground crew, or aviation executive, we equip you with the skills and insight to operate at the highest standard. Visit Booth 317 to see how we can elevate your aviation operations from the ground up.

<https://airtrafficientel.com/>

**Contact: Adam Calderas**

## **Archer Aviation—311**

Archer Aviation Inc. (NYSE: ACHR) is a leader in electric vertical takeoff and landing (eVTOL) aircraft, working to reimagine how people live and spend time. Archer's aircraft, Midnight, is a piloted four-passenger vehicle designed for back-to-back short-distance flights of up to 100 miles, with low noise and zero operational emissions. The company is backed by strategic partners including United Airlines and Stellantis, and is preparing for international expansion, with the United Arab Emirates expected to be one of its first global launch markets. Archer has also been selected as the 'exclusive air taxi provider' for the Los Angeles 2028 Olympic and Paralympic Games, and for Team USA. Beyond commercial operations, Archer is building a next-generation defense capability in partnership with defense technology firm Anduril Industries. Together, they are developing a hybrid eVTOL aircraft designed for military use. Archer is headquartered in Santa Clara, California. The company went public in 2021 and trades on the New York Stock Exchange as ACHR. For more information, visit [www.archer.com](http://www.archer.com).

<https://archer.com/>

**Contact: John Weege**

## **Concept Seating Government—316**

Concept Seating is the leader in 24/7 chairs. Designed for around-the-clock comfort, our ergonomic chairs adapt to virtually every body type, big or small, easing the strain of long hours. Backed by a comprehensive warranty to minimize downtime, Concept Seating is committed to keeping you comfortable, supported, and performing at your best—shift after shift.

<https://www.conceptseating.com/markets/government-contractors/>

**Contact: Jeff Greger**

## **EPOS Audio Critical Communications ATC/C3s Systems—412**

At EPOS, we specialize in developing advanced headsets and push-to-talk devices that deliver an exceptional audio experience for air traffic controllers and operators. Our COMMAND line of

headsets is now lighter than ever, offering enhanced comfort even during extended periods of use. These headsets feature high-quality audio and noise-cancelling microphones that capture the nuances of the human voice while effectively filtering out background noise. Additionally, our market-leading ActiveGard® technology provides superior hearing protection by shielding users from sudden noise spikes and harmful tones.

<https://www.eposaudio.com/en/us>

**Contact: Gus Skalkos**

## **Evans Consoles—208**

Evans is the leading global provider of Air Traffic Control (ATC) control room solutions. We support our customers through innovative design, expert project management, cutting-edge manufacturing, and customer-focused installations. Our approach reduces risk and helps customers achieve their goals for both new projects and modernization.

<https://www.evansonline.com/>

**Contact: Nick Yaskiw**

## **G.E.H.A.—215**

G.E.H.A (Government Employees Health Association, Inc., pronounced G.E.H.A.) is a nonprofit member association that provides medical and dental benefits to more than 2 million federal employees and retirees, military retirees and their families. Offering one of the largest medical and dental benefit provider networks available to federal employees in the United States, G.E.H.A empowers health and wellness by meeting its members where they are, when they need care. Headquartered in Lee's Summit, Missouri, with approximately 1,500 employees, G.E.H.A is committed to its members and their communities.

<https://www.geha.com/unions-associations>

**Contact: Eric Rosenberg**

## **General Dynamics Mission Systems—416**

We deliver next-generation aircraft, air traffic products and aviation services, which include digital modernization, unified communications, and ground-to-air radios and systems. Visit Booth #416 to discover how our products and solutions provide system interoperability and consistent, long-term performance, making us the global choice for reliable and secure Air Traffic Management solutions.

<https://gdmmissionsystems.com/>

**Contact: Terry Baker**

## **Joby Aviation Inc.—506**

Joby Aviation, Inc. (NYSE:JOBY) is a California-based transportation company developing an all-electric, vertical take-off and landing aircraft which it intends

# SPONSORS & EXHIBITORS

to operate as part of a fast, quiet, and convenient service in cities around the world.

<https://www.jobyaviation.com/>

**Contact: Eric Mueller**

## **MITRE—not exhibiting**

MITRE's mission-driven teams are dedicated to solving problems for a safer world. Through public-private partnerships, as well as the operation of federally funded R&D centers, we work across government to tackle challenges to the safety, stability, and well-being of our nation

<https://www.mitre.org/>

**Contact: Nicole Elliott**

## **NBP Corp. – 417**

Since 1966, NBP has established an undisputed reputation for innovation, quality, performance and integrity in the engineering, design and manufacturing of Landing Visual Aids including Approach Lighting Systems and Monitoring and Control Systems for the aviation, utility and defense industries.

<https://www.NBPcorp.com>

**Contact: Aiden Ozuna**

## **Rohde & Schwarz, USA—503**

Rohde & Schwarz is one of the world's leading suppliers and a reliable partner in the critical infrastructure and industry segment. The company develops, designs, manufactures and implements a comprehensive portfolio of monitoring, analytics and protection solutions to ensure the reliable operation and performance of critical infrastructures and networks, including ATC, spectrum monitoring and CUAS systems. ANSPs, regulators, governmental organizations and industrial operators rely on our solutions to ensure the reliable operation and performance of their assets.

<https://www.rohde-schwarz.com/>

**Contact: Greg McKenney**

## **RTCA Inc.—not exhibiting**

RTCA, Inc.'s mission is to lead the development of enduring, consensus-based technical performance standards which are vital to the work of our members and protect the safety and security of the global aviation ecosystem.

<https://www.rtca.org/>

**Contact: Andrea Berry**

## **Russ Bassett ATC Consoles—313**

Since 1960, Russ Bassett has built a reputation for design and manufacture of high quality, innovative products backed with integrity and passionate customer service. All Russ Bassett Products are 100% Made in the USA at our 112,000 sq. ft. facility in Whittier California. We are a trusted partner in

the ATC Market for FAA, DOD, Public Safety and Command/Control Rooms.

<https://russbassett.com/products/consoles/>

**Contact: Walter Hammerle**

## **Saab, Inc—414**

At Saab, we create aviation systems and services to enable safe, predictable and efficient operations.

As a leading provider of proven Air Traffic Management solutions, we transform operations and turn innovative ideas into reality.

<https://www.saab.com/products/air/air-traffic-management>

**Contact: Kimberly Taylor**

## **Serco—211**

Serco delivers essential services and solutions to clients worldwide. In North America, our team works to make a meaningful difference every day at more than 100 locations throughout the U.S., Canada, and beyond. Driven by our core values—Trust, Care, Innovation, and Pride—we are honored to support air traffic control operations at FAA Contract Towers (FCTs) across the United States.

<https://www.serco.com/na>

**Contact: Dave Ritchey**

## **SkyOne Federal Credit Union—318**

SkyOne proudly honors our aviation legacy for the past 75 years. As a trusted partner, we offer exclusive benefits tailored for aviation industry employees. Our solution goes beyond traditional offerings, enhancing your employees' benefits package and promoting financial wellness. We provide tools, resources, and personalized guidance to elevate their financial journey.

<https://www.skyone.org/natca/>

**Contact: Shaun Richard**

## **SkySoft ATM—212**

Founded in 2001, SkySoft-ATM is a Swiss company with offices in Geneva and Zürich. We are leader in innovative air traffic management solutions operating as a subsidiary of Skyguide, providing them with 80% of their software and managing over 1.2 million civil & military flights annually. We are global leader in screen recording, with deployments in over 30 countries. We value a human-centric and innovative approach and provide advanced decision support and augmentation tools designed by and for air traffic controllers, enhancing efficiency and accuracy.

<https://www.skysoft-atm.com/>

**Contact: Robert Hamdoun**

## **STR-SpeechTech Ltd—216**

STR-SpeechTech Ltd. (STR) is a provider of mission critical aviation broadcasting systems for the global aviation community. Located in Victoria, British

# SPONSORS & EXHIBITORS

Columbia, Canada; STR is committed to developing, supporting and delivering quality software and systems with integrated Text-to-Speech components for mission-critical broadcasting applications primarily for the aviation industry. STR is a privately owned corporation incorporated in 1989 under the laws of the province of British Columbia, Canada. From its facilities in Canada, STR has successfully delivered weather and aviation broadcasting systems to almost 300 sites in all the regions of ICAO.

<https://www.speechtech.com/>

**Contact: Haaris Hashmi**

## **uAvionix—217**

uAvionix delivers advanced technology and services for the detection and surveillance of aircraft and airport ground vehicles. As the leading provider of ADS-B solutions for aviation, uAvionix airport solutions enhance situational awareness, improve safety, and boost operational efficiency.

<https://uavionix.com/>

**Contact: Jennifer Kearney**

## **UFA Inc.—507**

UFA, Inc. is a leading provider of air traffic control simulation solutions, advanced voice recognition technologies, and comprehensive airside driving training solutions for air navigation service providers (ANSPs), airport operators, military organizations, and educational institutions worldwide. Our solutions provide exceptionally realistic simulations, part-task training, and e-learning tools to support all aspects of air traffic control and airside driver training. UFA is committed to providing pioneering products and exceptional service to its valued customers.

<https://www.ufainc.com/>

**Contact: Amy Parish**

## **Volanno—210**

Volanno is an award-winning Women-Owned Small Business providing innovative, mission-critical software development, data analytics, and program management services to transportation agencies. Volanno developed the TEAM platform, used by 14,000 Air Traffic Controllers to track training. Volanno created Aviation System Performance Metrics, and supports key reports and forecasts for the FAA.

## **EXHIBITORS:**

### **ATAC—418**

ATAC Corporation is a software and services company that specializes in providing the aviation community with state-of-the-art computer simulation, modeling and data analysis tools, and expert consulting services in air traffic systems and operations design and evaluation. We are committed to making major contributions to the aviation industry by providing high quality products and services to meet critical needs while maintaining a creative, innovative, responsive business environment.

The diverse backgrounds of ATAC staff, along with individual planning and technical expertise, qualifies ATAC as a premier firm ready to address complex issues using quantifiable results. ATAC employs professionals with multi-faceted airport planning experience and backgrounds in technical analysis. Our airport planning experience ranges from development of hub airport master plans to a broad history of completing detailed and highly technical environmental impact analyses. Our experience in the development of modeling and analysis tools used throughout the aviation community as fundamental tools for airspace and airfield capacity projects include Simmod PRO!, the Integrated Noise Model (INM), the Aviation Environmental Design Tool (AEDT), the Integrated Human-in-the-loop simulation system (I-SIM), and the FAA's Performance Data Analysis Reporting System (PDARS). ATAC specializes in applying systems and data used throughout the FAA's local facilities, FAA Headquarters, NASA, the Department of Defense, and by the aviation industry.

ATAC is unsurpassed in the application of these tools to many successfully completed airport and airspace capacity and delay projects. This capability, when combined with our many years of operations experience and subject matter expertise, makes our team uniquely qualified to meet the requirements for the specified subject areas.

## **National University—B4**

For more than 50 years, National University (NU) has been dedicated to meeting the needs of adult learners. Founded in 1971 by a U.S. veteran, NU is San Diego's largest private nonprofit university, serving working professionals, servicemembers, and lifelong learners balancing education with work, family, and other commitments.

With flexible four- and eight-week courses, monthly start dates, and year-round enrollment, NU makes it possible to start sooner and finish faster. Students can choose from more than 150 career-relevant

# SPONSORS & EXHIBITORS

associate, bachelor's, master's, and doctoral programs, and industry-recognized credentials, designed to help them achieve their goals and make a lasting impact in their communities.

Whether online or in person, NU offers options that fit busy schedules without putting life on hold. As a regionally accredited institution through the WASC Senior College and University Commission (WSCUC), NU ensures an education that meets rigorous standards and is recognized by employers and other universities.

NU is proud to partner with the National Air Traffic Controllers Association (NATCA). NATCA members, employees, and retirees receive 25% off most associate, bachelor's, and master's programs, plus 15% off doctoral programs. Spouses and dependents also receive a 15% tuition reduction, making education more accessible for the entire NATCA community.

## **Southern Insurance Group (SIG)—509**

SIG has been a Benefits Partner of NATCA since 2002. The main mission of SIG is to help the members save thousands of dollars over insurance coverage they get from the government, FEGLI and help with the Open Enrollment of NATCA's UNUM disability plan. Open enrollment is open for 2025! Come visit us at Booth 509.
